

Smooth sailing marina technology

RMS delivers an all-in-one marina management solution that's customizable, convenient, & secure.

A PMS BUILT WITH EASE & SCALABILITY IN MIND

RMS Cloud offers property management software with innovative solutions that streamline your operations from one centralized location. Whether you are managing a small boutique marina or a large-scale slip selection, RMS provides you with the right customizable features that help maximize your operations and create smooth guest experiences.

SECURITY IS A CORE FEATURE OF THE RMS PLATFORM

RMS regularly conducts extensive third-party examination and compliance certification to keep your business secure, including PCI compliance, Microsoft Azure security policy based on ISO 27001, SOC2, military-grade certifications, and more.

All the features you need in one place

QUICK SLIP SELECTION & BOOKING

Our Internet Booking Engine (IBE) makes it easy for your guests to select the slip they need from an Interactive Map and complete their booking - and it updates on your end in real time.

UNIQUE RATE SETUPS FOR YOUR BUSINESS

Configure rates based on your premium slips and memberships from within your RMS database. You can also use our Dynamic Pricing tool to ensure your pricing fluctuates with demand, optimizing occupancy.

550+ INTEGRATION PARTNERS

We've got over 550 (and counting) integration partners. Need additional revenue management functionality? We've got you covered. And with our hundreds of OTAs offered through our native Channel Manager, you're sure to get even more bookings.

GUEST FEATURES TO KEEP YOU ENGAGED

With the RMS Guest Portal, your guests can check-in & out, make payments, sign lease agreements, upload documents, communicate with your staff, and more. Want to encourage return visits? We also offer a Guest Rewards program, configurable to your needs.
